COMPANY PROFILE

WHO WE ARE

FreightXchange is a freight logistics company, focusing on the Southern Africa Region. Our head office is in Heidelberg, Gauteng, and we have branches in Cape Town, Durban and Nelspruit. We are an energetic team of professionals with wide-ranging experience in logistics and the skills to respond to your needs with services you can count on.

WHO OUR CUSTOMERS ARE

We serve a diverse range of clients, spanning from small businesses to large corporations, including national and international enterprises across various sectors such as mining, industrial, and FMCG.

WHAT WE OFFER

Our services span the full supply chain. This includes:

- Road transport services
- Importing and exporting of goods
- Cross-trading
- Sea and air freight
- Material handling
- Bonded and non-bonded warehousing
- Project management

"Trade isn't about goods. Trade is about information.
Goods sit in the warehouse until information moves them."
C.J. Cherryh

SERVICE OFFERING

Transportation

We offer road transport services across all major corridors in Southern Africa with a wide range of vehicle types, providing managed transportation solutions to the mining, industrial, and FMCG sectors.

Warehousing

We have access to strategically located bonded and non-bonded warehouses, where we cater for bulk, palletised, and project cargo.

Bulk Material Handling

Our bulk cargo handling solutions include loading of road trucks, railside loading, and stockpile management.

Container Handling

We provide container handling equipment and services to meet the unique needs of ports, terminals, and logistics companies worldwide.

Cross-hauling

We provide cross-hauling services at South Africa's main container terminal ports – Durban, Gqeberha and Cape Town.

Project Cargo

We are equipped to manage complex heavy and oversized cargo for large industrial projects by road transport, sea and air freight.

Freight Forwarding and Clearing

Through our strategic partners, we have established strong connections with customs authorities worldwide. This has given us an extensive understanding of the customs regulations, procedures, and tariffs that are integral to obtaining smooth import and export customs clearances.

Project Management

We understand that each project is unique, requiring a tailored approach to meet its specific requirements. Therefore, we adapt our strategies and resources accordingly, ensuring that every aspect of each project is meticulously managed.
